

## **AFFILIATED MONITORS, INC. AND MILLER MONITORING & CONSULTING, LLC FORM STRATEGIC ALLIANCE**

**Affiliated Monitors, Inc. (AMI)**, the premier independent compliance monitoring/evaluation company in the United States and a new firm led by former Iowa Attorney General Tom Miller, **Miller Monitoring & Consulting, LLC (MMC)**, have formed a strategic alliance. The teaming arrangement offers government agencies, companies, and counsel unmatched experience and capabilities designed to bring successful results to all matters where independent monitoring is being considered.

Vin DiCianni founded **AMI** in 2004 with professionals from the legal, financial, insurance, healthcare, and criminal justice fields. **AMI** was the first company in the U.S. to focus on providing independent monitoring and assessment services across a wide range of regulated industries and professions. Over its nearly 20-year history, **AMI** has been the integrity monitor for more than 900 matters involving federal, state, and or private enforcement actions. **AMI's** experience tracking compliance with government regulations and industry practices spans fields such as antitrust, consumer protection, construction, education, financial services, government contracting, healthcare, insurance, manufacturing, public utilities and transportation.

Tom Miller started **MMC** in 2023 and provides independent monitoring and consulting services for compliance oversight. Prior to launching **MMC**, Miller served as Iowa Attorney General for 40 years, the longest serving AG in U.S. history. Among the many cases in which AG Miller held a leadership role, the multi-state cases involving Microsoft, tobacco, bank mortgages, and for-profit colleges are the most significant. During his historic tenure, AG Miller was a strong advocate for independent monitors; he utilized their independent nature to facilitate alternative, positive resolutions in complex matters. He looks forward to working with the **AMI** team to offer comprehensive, affordable monitoring services.

The unparalleled experience and background of **MMC** combined with the proven history of **AMI** creates a special strategic alliance and partnership. Both **MMC** and **AMI** are certain their work together will benefit clients of all sizes across industries.
